Regulation 133: Precautions against fire

1. No person shall light a fire or use a naked light in any underground part of a coal mine.

2. Suitable fire extinguishers shall be kept readily available at strategic locations.

Regulation 137: Precautions against coal dust

1. Adequate steps shall be taken to minimize the generation of coal dust.

2. Accumulation of coal dust on roof, floor, and sides shall be cleared periodically.

3. Stone dusting shall be done to maintain the incombustible content of dust at not less than 75%.

Regulation 149: Precautions against danger of inundation

1. No working shall be made within 60 meters of any water body without prior permission from the Regional Inspector.
